TISCA

Premium Mobility Textiles.
From One Single Source.
Made in Switzerland.

We dress Aircraft Interiors

We design, develop and manufacture a broad range of premium quality textiles for the complete aircraft cabin interior furnishing under one roof.

• All kinds of carpets, seat cover, curtain, headrest and sidewall fabrics in coordinated and harmonized designs and colors.

• Furthermore, we produce ready-to-install products, such as steam-pleated curtains or pre-cut carpet shipsets.

• We offer customized products and solutions for both the commercial airline as well as the VIP and business jet market.

• We have an outstanding and award-winning in-house design and development department that realizes any of your ideas with creativity, passion and flexibility.

• Customized products are manufactured with very little minimum order quantities and short delivery times.

• A wide range of collections is available on stock with no minimum order quantity, ready for immediate shipment.

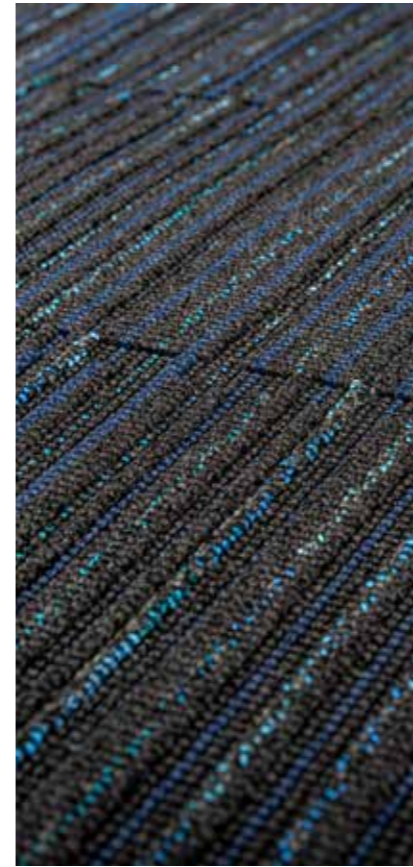

• Founded in 1940, Tisca has grown to become one of the most prominent and leading manufacturers of mobility, commercial, living and sports textiles.

• Made in Switzerland.

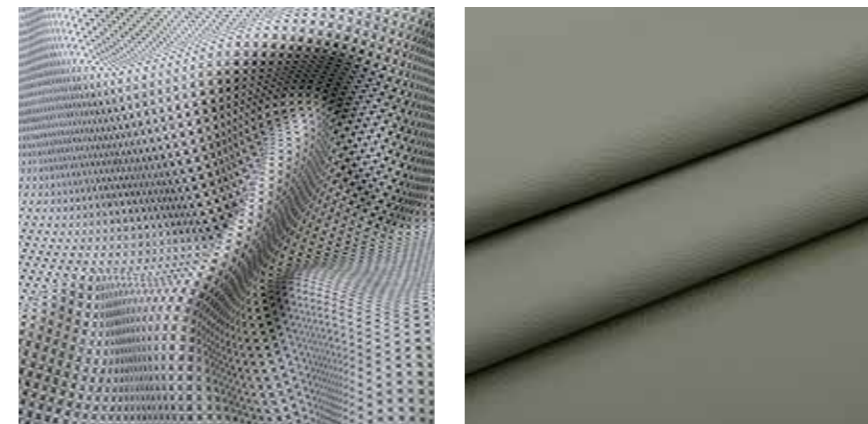

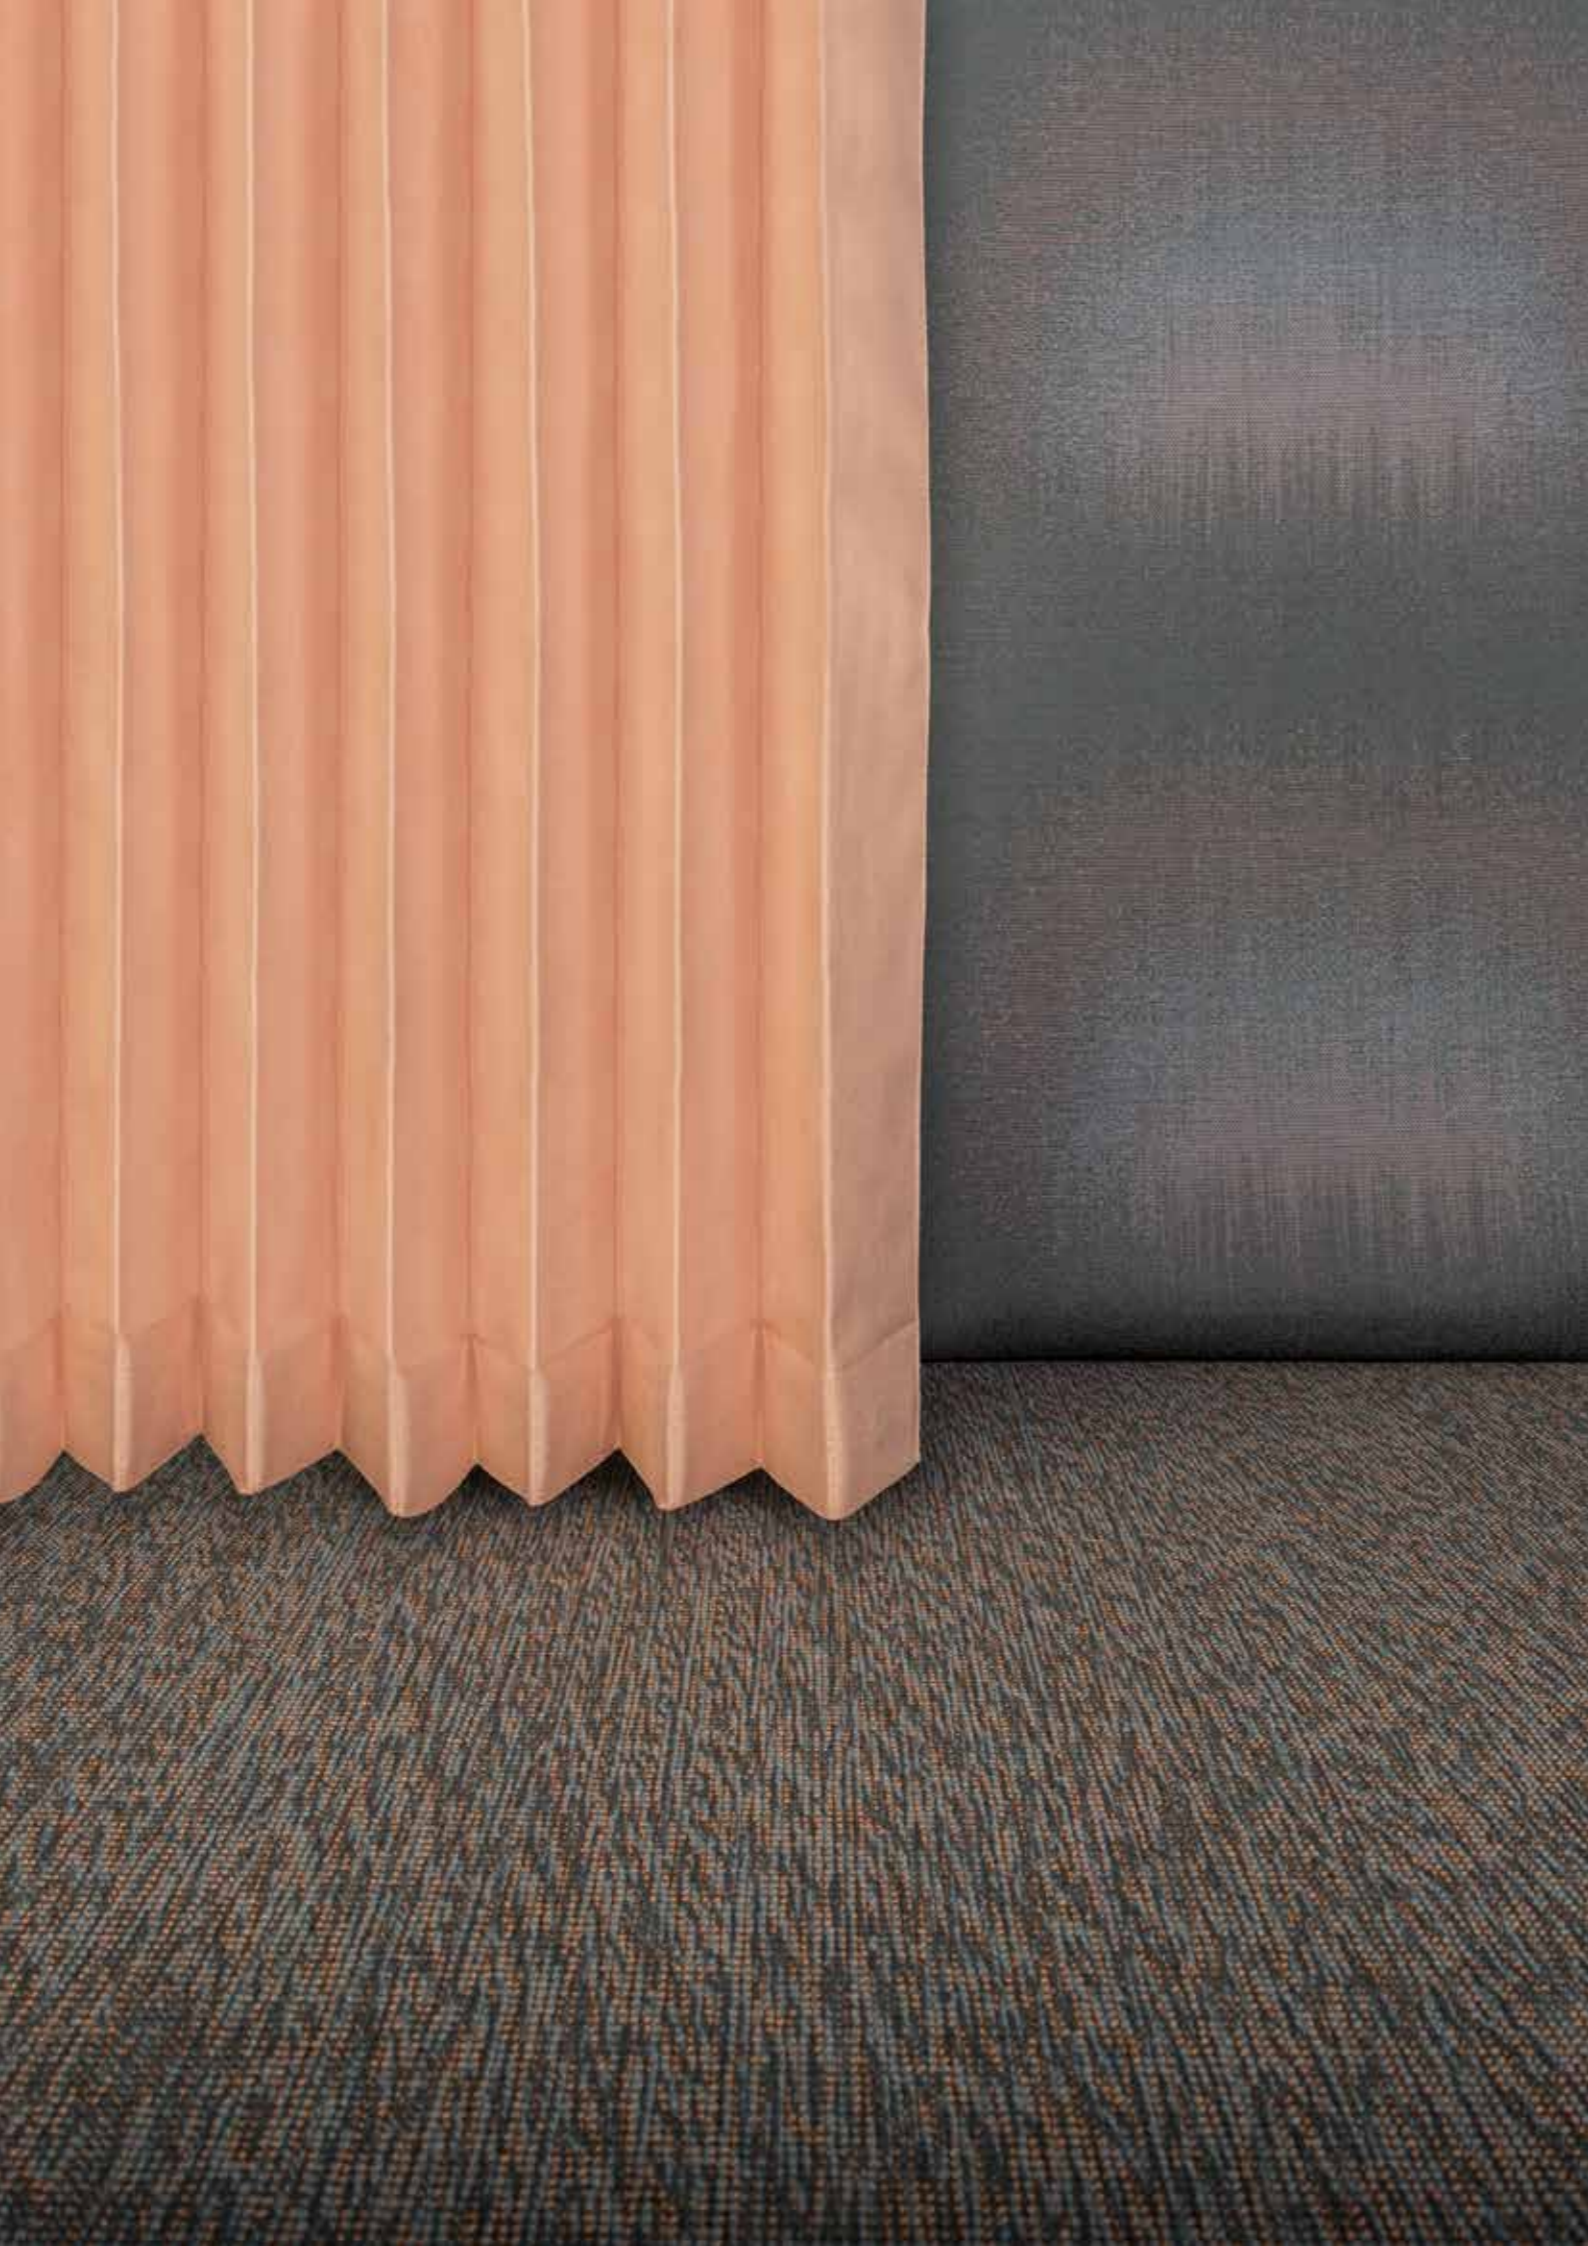

We dress Aircraft Interiors

Coordinated and harmonized designs and colors.

All kinds of carpets, seat cover, curtain, headrest and sidewall fabrics.

Mobility Textiles from Tisca are setting new standards in creating ambiance and providing the desired comfort in order to relax and find repose in a hectic, noisy and fast-paced world.

Feel like home, even when you have just left. Traveling doesn't equal traveling. It is an art to travel in style.

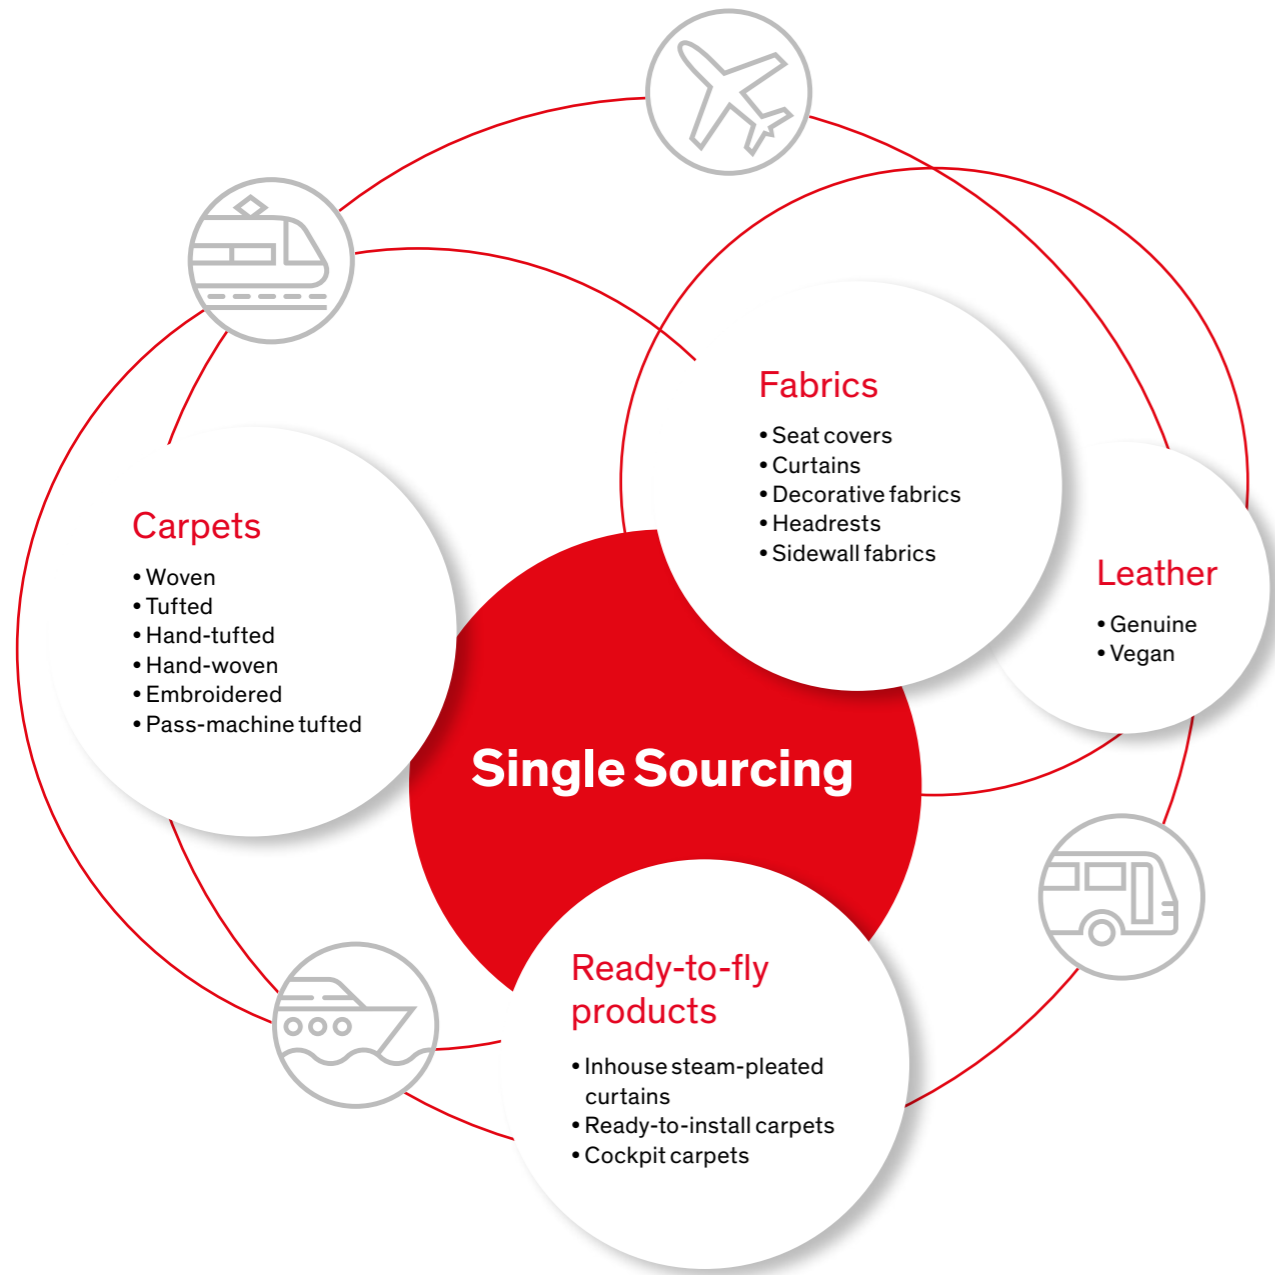

Your Benefits

- One stop shopping
- Fast realization of your projects
- Realize any of your textile ideas and dreams
- Establish a distinctive corporate image through better design
- Protection of your investment through superior quality products
- Reliability

Our Strengths

and other transportation market.

Inspiration and Style

In today's world of opulence and mass production, quality and design are critical success factors. Tisca stands for highest quality and sophisticated design.

We offer premium quality products in harmonized designs and colors, all from one single source.

Made in Switzerland.

Our craftsmen produce high quality steam-pleated curtains which includes glider and hook fixings.

The curtains are ready-to-install for an enduring compliment to your furnishings.

We offer customized products and solutions for the commercial airline.

As well as the VIP and business jet market.

Our Commitment – Your Added Value

We provide genuine values to our customers

More Quality

Quality to us means processing of premium raw materials only combined with top grade workmanship. Several decades of experienced proficiency are reflected in our products, and we are proud to be renowned worldwide for our superior quality products. Our products meet the railway industry's stringent safety and quality requirements, and are delivered with the required certificates. We are fully certified according to ISO 9001, EN AS 9100 and CE. Moreover, our products are certified and tested for environmentally friendly manufacturing.

More Service

We develop customized designs, products and solutions for cabin interiors around the globe. Individual ideas and requirements are being realized in a speedy manner, a comprehensive and quick sample service facilitates the decision process. Fast, accurate and reliable product delivery, as well as installation and cleaning instructions complement our service range. A wide range of collections is available on stock with no minimum order quantity, ready for immediate shipment.

More Expertise

As a full line manufacturer of mobility textiles Tisca provides its customers with an incredible variety of products and services. With our seven highly specialized competence centers and diversified production technologies, we are able to satisfy any textile needs of the transportation industry. All from one single supplier, manufactured under one roof.

More Protection Of Your Investment

Our long-living carpets and fabrics result in the most economical life-cycle costs thanks to their premium quality and longevity, even under heavy wear and tear. They allow operators to save money by minimizing replacement, refurbishment, maintenance and cleaning costs.

More Individuality

We provide our clients with exclusive, customized and distinctive textile interiors which are aligned with their corporate design and identity. Our award-winning design team realizes any ideas with creativity, flexibility and passion.

More Sustainability

Our environmental T-Cycle concept spans both the entire company level as well as the individual product level: investments towards a CO₂-reduced future, such as the site for the largest PV system in the canton and the continuous modernization of the company buildings are all part of our ongoing efforts. Tisca products are additionally produced with recycled and reusable materials with a strong focus on longevity. Life-cycle assessments have shown that long-lasting products provide the best ecological footprints. Commitment to all pillars of sustainability is part of the Tisca philosophy.

The background of the left half of the page is a close-up, high-angle shot of a blue, textured material, likely a carpet or fabric, with many fine, parallel lines running diagonally from the top-left to the bottom-right. The lighting creates a sense of depth and texture, with some areas appearing brighter than others.

Premium mobility textiles from one single source.
Carpets | seat cover | curtains
Made in Switzerland.

Customized carpets, seat cover and curtain fabrics are manufactured with very little minimum order quantities and short delivery times.
